PET POLICY

- 🐕 All pets must be properly licensed, have shots required by statute, and be spayed or neutered. Please be prepared to show documentation.
- 🐕 Breeds with a disposition for aggressive behavior are prohibited.
- 🐕 Most properties welcome 2 pets
- 🐕 Be prepared to provide a picture of your pet and vaccination records.
- 🐕 A security deposit will be charged for each pet.

Pet Screening

Pet Screening is a simple and secure tool that allows you to store all the important information about your pet in one place.

Approved Evergreen PM applicants must complete a pet screening for each of their pets or companion animals before moving in. There is a nominal charge for Pet screenings, service/companion animal registration is free.

The benefits of registering your pet with a pet screening service are huge. An online pet screening allows you to consolidate the paperwork required to manage your pet's complicated life in one place. We think you'll love it, we do!

Profile information includes photos, vaccinations, microchip information, training, behavioral traits as well as a special section for service/companion animals. You'll love easily sharing this information with all the service providers in your pets' lives: pet sitters, doggie daycares, groomers, veterinarians, and animal hospitals.
